

HFCA Homeowners,

The 2010 HFCA handbook inserts are now available at the HFCA office also the 2010 Telephone books are also available for Homeowners at the Highlands Falls Community Association, Inc. Office. Please stop in the HFCA office for your copy of the 2010 HFCA handbook inserts and telephone book.

Thanks so much,

HFCA Staff

RATTLESNAKE WARNING

It is that time of year that the snakes will be coming out of hibernation and will be hunting food as well as a mate.

We have had rattlers along the side of the roadways as of late. Our men have come in contact with them while weed-eating the roadways.

I want to caution you to take care while walking after dark. Snakes will come to the edges of the road to warm themselves during the evening hours.

While we do not have street lamps it is easy to walk up to one without see it. Please be careful. BRUCE

BEAR ALERT

Hi All:

It appears that we are being visited once again by Mama Bear and her “big” cubs. We have had a number of incidents as of late with the bears coming

for your bird seed and humming bird feeders. They have been frequenting the area near the 700 block of Falls Drive West and the 400 block of Spruce Lane. We have heard that they even entered a garage and grabbed something edible and ran off with it. Please take care at all hours. One of our employees was weed eating the roadside and the mother charged and chased him. Unfortunately the DNR will not attempt to capture and move these bears for us. BRUCE
